PIG® Universal Light-Weight Absorbent Drum-Top Pad

Precut with holes for 3/4" and 2" bungs to provide a perfect fit on steel 55-gallon drum tops. Soak up overflow and pump drips to keep them off floors without cluttering up your shop with dirty rags. Eight layers of 100% polypropylene are thermally bonded to make PIG® Mat the strongest mat on the market; won't rip, fray or fall apart, even when saturated. Highly absorbent material traps liquids, so it won't drip or leave behind fibers when you pick it up; spend less time collecting used absorbent between jobs. Exclusive dimple pattern speeds wicking of liquid toward dry spots on Pad, so messes disappear fast, cleanup is simple and you use each pad to full capacity. Eliminate messy drum storage areas without touching a mop or rag!

3M™ Overspray Protective Sheeting

Shields cars, trucks or vans from overspray while being repainted. High density polyethylene film offers excellent paint adhesion and paint overspray adhesion. Resist paint flaking, which eliminates the need for masking paper at the critical paint edge. The sheeting clings to vehicle and has center printing for easy alignment, which makes it easy to handle. Sheeting easily cuts to any size needed for a project.
