REASONS TO CHOOSE BMW/MINI ENGINE OIL

PROTECTION

Protects the engine from sludge, which enables a long engine service life.¹

CLEANLINESS

Captures dirt particles, which reduces deposits in the engine.

ECONOMY

Has a lower tendency to evaporate, which leads to low oil consumption and thus less frequent top-offs.²

PERFORMANCE

Ensures an outstanding low temperature performance, even in temperatures as low as -40°C, which enables easier cold-start characteristics.³

(1) Based on industry standard sludge tests; (2) based on industry standard NOACK tests; (3) applies for all 0W-30 grades. 5W-grades ensure a low-temperature performance in temperatures as low as -35°C.

BMW BRAKE PARTS CLEANERS

Brake Parts Cleaner, Non-Chlorinated, 45% VOC, BMW Group

Quickly removes grease and oil. Dries fast with no residue. Contains no chlorinated solvents or CFC propellants. For metal brake parts only. This product is not for sale in California, Utah, or other states that prohibit 45% VOCs in Brake Cleaners.

GASOLINE FUEL ADDITIVE FOR ENGINE PROTECTION

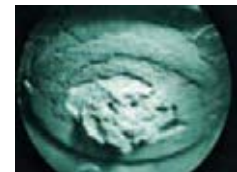

Low quality fuel causes deposits in the engine that can lead to loss of performance.

The benefits of using BMW & MINI Fuel Additive Petrol:

- Keeps the combustion chambers, the injectors and the fuel system clean.
- Protects the engine against harmful deposits.
- Protects against corrosion caused by fuels containing ethanol.
- Prevents ageing of fuel in the tank, especially advisable for hybrid, seasonally used and standing vehicles.
- Specially developed for BMW Group.
- Offers market-leading fuel additive technology.
- Use before refueling every 3,000 miles for **normal** conditions.
- Use before refueling every 1,000 miles for **severe** conditions.

1. Encrusted injector.

2. Cleansing performance of other conventional products after one tank filling.

3. Cleansing performance of BMW & MINI Fuel Additive Petrol after one tank filling.

Fuel Additive Petrol, BMW

Prevent and remove deposits caused by low quality fuel that can hinder engine performance.

OIL

BMW M TwinPower Turbo 10W-60

The BMW M TwinPower Turbo SAE 10W-60 has been coordinated especially with BMW M cars so that the potential of BMW M engines can be utilized to the fullest. It helps to keep critical engine components clean, thus contributing to protection of the powerful BMW M engines. It also provides excellent temperature stability, maintaining constant engine performance even in extreme conditions. For M5/M6/Z8/Z3M/Z4M cars built up to and including construction year 2010. M3 cars built up to and including construction year 2013. The safety data sheet is available via Centernet.

83 21 5 A2A FD7	BMW M TwinPower Turbo 10W-60	1 L	6 pieces (Dealer DMS Order)
83 21 5 A2A FD9	BMW M TwinPower Turbo 10W-60	5 L	3 pieces (Dealer DMS Order)

BMW TwinPower Turbo LL-17 FE+ 0W-20 (Gasoline)

The BMW TwinPower Turbo Longlife-17 FE+ SAE 0W-20 engine oil is an innovative, ash-reduced engine oil for compatible engines of the newest BMW TwinPower Turbo gasoline engine generation. The LL-17 FE+ 0W-20 has a very good low temperature performance. Hence, it takes little time to reach the engine's moving parts, which results in fast engine cranking, easy-starting and a quick warm-up. This oil also protects the engine from sludge and wear in order to keep critical engine parts clean and therefore enable a long service life. Suitable for BMW gasoline engines Bx6, Bx8, N20 and N26 built after 2014. The safety data sheet is available via Centernet.

83 21 5 A2A FC7	BMW Group LL-17 FE+ 0W-20	Drum	209 Liters (Dealer DMS Order)
83 21 5 A2A FC9	BMW Group LL-17 FE+ 0W-20	Bulk Tank	Tank (VMI Autofill)
83 21 5 A2A FC5	BMW TwinPower Turbo LL-17 FE+ 0W-20	1 L	6 pieces (Dealer DMS Order)

BMW TwinPower Turbo LL-01 FE 0W-30 (Gasoline)

The BMW TwinPower Turbo Longlife-01 FE SAE 0W-30 is a fuel-economy engine oil which shows improved fuel economy. It also provides excellent protection against wear and easier cold starting at low temperatures. Suitable for approved BMW gasoline engines built after 2001 (N1x, N2x, N4x, N54, N55, N63, N74). Also suitable for BMW M engines after automotive year 2014. The safety data sheet is available via Centernet.

83 21 5 A2A FB0	BMW Group LL-01 FE 0W-30	Drum	209 Liters (Dealer DMS Order)

83 21 5 A2A FA9	BMW TwinPower Turbo LL-01 FE 0W-30	5 L	3 pieces (Dealer DMS Order)

BMW TwinPower Turbo LL-12 FE 0W-30 (Diesel)

The BMW TwinPower Turbo Longlife-12 FE SAE 0W-30 is an innovative fuel-economy engine oil, which shows improved fuel economy. It's additive technology with significantly reduced amounts of ash-forming substances protects the diesel particle filter against soiling and contamination (low SAPS formula). At the same time, even under extreme conditions, it provides consistent performance, and facilitates cold starts even at low temperatures. For BMW diesel engines as of model year 2014 with max. 1 turbocharger. For engines with 2 or more turbochargers, BMW LL-04 oils must be used. For model X6 (E71), LL-12 FE must not be used. The safety data sheet is available via Centernet.

------------------------	---	-----	-----------------------------

BMW TwinPower Turbo LL-01 5W-30 (Gasoline)

The BMW Longlife-01 TwinPower Turbo SAE 5W-30 is an engine oil based on synthetic technology that allow the potential of BMW engines to be utilized to the fullest. It keeps critical engine parts clean and provides very good engine performance and excellent engine protection. This engine oil has very good viscosity properties, reduced friction, and minimal evaporation loss. Suitable for all BMW gasoline engines. The safety data sheet is available via Centernet.

83 21 5 A2A F86	BMW Group LL-01 5W-30	Drum	209 Liters (Dealer DMS Order)

------------------------	---------------------------------	-----	-----------------------------

BMW TwinPower Turbo LL-22 FE++ 0W-12 (Gasoline)

The BMW 0W-12 oil viscosity results in lower fuel consumption due to the smooth-running properties. Compared to traditional engine oils, this oil shows reduced friction and minimizes the tendency to evaporate. BMW Longlife-22 FE++ engine oils are only suitable for certain BMW Group gasoline engines released from model year 2022 + and is not backwards compatible with older BMW Group gasoline engines. The safety data sheet is available via Centernet.

------------------------	--------------------------------------	-----	------------------------------

MINI Original Engine Oil LL-17 FE+ 0W-20 (Gasoline)

The MINI Original Oil Longlife-17 FE+ SAE 0W-20 engine oil is an innovative engine oil for compatible engines of the newest MINI TwinPower Turbo gasoline engine generation. The LL-17 FE+ 0W-20 has a very good low temperature performance. Hence, it takes little time to reach the engine's moving parts, which results in fast engine cranking, easy-starting and a quick warm-up. Furthermore, this oil protects the engine from sludge and wear in order to keep critical engine parts clean and therefore enable a long service life. Suitable for MINI gasoline engines Bx6, Bx8 built after 2014. The safety data sheet is available via Centernet.

83 21 5 A2A FC7	BMW Group LL-17 FE+ 0W-20	Drum	209 Liters (Dealer DMS Order)

83 21 5 A2A FC6	MINI Original Engine Oil LL-17 FE+ 0W-20	1 L	6 pieces (Dealer DMS Order)

MINI Original Engine Oil LL-01 FE 0W-30 (Gasoline)

The MINI Original Longlife-01 FE SAE 0W-30 is a fuel-economy engine oil for gasoline engines. It also provides excellent protection against wear and easier cold starting at low temperatures. Suitable for approved MINI gasoline engines model year 2002. The safety data sheet is available via Centernet.

83 21 5 A2A FB0	BMW Group LL-01 FE 0W-30	Drum	209 Liters (Dealer DMS Order)

MINI Original Engine Oil LL-01 5W-30 (Gasoline)

The MINI Original Engine Oil Longlife-01 SAE 5W-30 helps to keep critical engine parts clean and provides very good engine performance and excellent engine protection. This engine oil has very good viscosity properties, reduced friction, and minimal evaporation loss. Suitable for MINI gasoline engines. The safety data sheet is available via Centernet.

83 21 5 A2A F86	BMW Group LL-01 5W-30	Drum	209 Liters (Dealer DMS Order)

1 piece

Primer VP 206, BMW Group

One component, solvent-based, moisture-curing liquid primer that is used to improve bonding to a variety of substrates such as plastics, glass, FRP, ABS, aluminum, steel, and paints. Fast curing. Provides corrosion protection. Includes applicator brush. Used in repairs that involve bonding of plastic to carbon fiber.

83 19 2 450 377 250 mL 1 piece

Adhesive Drei Bond 1385, BMW Group

Specially developed for thread and joint connections subjected to high temperatures. Can be used for material combinations such as polyamide plugs in cylinder heads. Screw sealing agent for changing radial shaft seal rear axle gearbox drive for flange nut. Note: This product often received with minimal shelf life. Order only as needed.

83 19 0 417 376 50 g 1 piece

K1 Bodywork Adhesive, BMW Group

One-component structural adhesive for repairing weight-reduced aluminum front section components (GRAV) and for bonding bodywork components made of aluminum.

83 19 0 413 015 195 mL 1 piece

Betalink K1 Adhesive Kit, BMW Group

Genuine BMW Betalink K1 Adhesive. Used for attaching spoilers, aero lips, splitters, etc. to your vehicle. Kit contains: (1) R-1 Autobody and Glass Primer 125mL (4.2 fl. oz.), (1) Adhesive BL-K1 80mL (2.7 fl. oz.), (1) Applicator tip, (1) Spatula, (1) Sheet Sandpaper 1.5" x 8.5" (3.8 cm x 21.5 cm), and (1) Instruction Sheet. Note: This product often received with minimal shelf life. Order only as needed.

83 19 5 A32 6D0 1 kit 1 kit

K2 Bodywork Adhesive, BMW Group

Adhesive for mounting the roof of F01/F02. Consists of hardener and adhesive.

83 19 2 355 849 1 box 1 box

Betalink K2 Adhesive Kit, BMW Group

Adhesive can be used to bond plastics, composite materials and painted parts together. Ex: spoilers. Kit contains: (1) R-1 Autobody and Glass Primer 125mL, (1) Adhesive BL-K2 pt A 100mL, (1) Adhesive BL-K2 pt B 100mL, (1) Adhesive BL-K2 pt C 15mL, (1) Cartridge holder, (2) Mixing tips, (1) Tip connector, (1) Cartridge opener, (2) Applying daubers. Note: This product often received with minimal shelf life. Order only as needed.

PIG® Universal Light-Weight Absorbent Drum-Top Pad

Keep drum tops clean and professional without the clutter of dirty rags. Put precut PIG® Drum-Top Pads in place to soak up drips and spills from filling and dispensing. Precut with holes for 3/4" and 2" bungs to fit perfectly on steel 55-gallon drum tops. Quickly absorbs and retains all common automotive fluids and solvents: oils, coolants, water, gasoline, paint over spray, battery acid and more. PIG® Mat's eight layers of polypropylene won't leave residue after saturation or fluid evaporation. Contains 50% recycled fibers.

5 pads/bag

18 bags

PIG® Universal Light-Weight Absorbent Drum-Top Pad

Precut with holes for 3/4" and 2" bungs to provide a perfect fit on steel 55-gallon drum tops. Soak up overflow and pump drips to keep them off floors without cluttering up your shop with dirty rags. Eight layers of 100% polypropylene are thermally bonded to make PIG® Mat the strongest mat on the market; won't rip, fray or fall apart, even when saturated. Highly absorbent material traps liquids, so it won't drip or leave behind fibers when you pick it up; spend less time collecting used absorbent between jobs. Exclusive dimple pattern speeds wicking of liquid toward dry spots on Pad, so messes disappear fast, cleanup is simple and you use each pad to full capacity. Eliminate messy drum storage areas without touching a mop or rag!

83 19 2 469 856

20 pads/dispenser box

PIG® Water Repellent Oil-Absorbent Light-Weight Mat Roll

STRONG, DURABLE ABSORBENT MAT: Eight layers of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market; won't rip, tear or fray even when saturated. New Pig Absorbent Mats lasts 2x longer than ordinary mats for fewer change outs; easy-tear perforations mean less waste to save you money. Exclusive dimple pattern speeds wicking of liquid throughout the mat for faster, easier cleanup of oil, coolants, water, grease, gasoline, solvents.

83 19 2 469 859 1 roll, 15" x 50' 12 rolls

PIG® Magnetic Roll Holder

Keep your PIG® mat within an arm's reach for easy access and hassle-free dispensing. The PIG® Magnetic Roll Holder attaches to any metal surface to keep mat off the floor and close at hand. Holds one 15"W x 50"L PIG® Mat Roll for easy one-handed dispensing. Durable, powder-coated steel resists chips, rust, and corrosion. Powerful magnets keep roll holder firmly in place during dispensing; can be removed and relocated in seconds. Ideal for attaching to tool boxes, car lifts, support beams, or other metal surfaces.

83 19 2 469 860 1 holder, 17" x 5.5" x 2" 1 holder

PIG® Mat Adjustable Roll Dispenser

Free-standing steel frame easily adjusts and locks into position to dispense a wide variety of PIG Mat Rolls. Adjustable width from 16" to 32", locks open for hassle-free moving, tilted design enhances stability when dispensing, durable painted steel resists rust and corrosion. Use with 16" - 32" wide rolls.

3M™ Overspray Protective Sheeting

Shields cars, trucks or vans from overspray while being repainted. High density polyethylene film offers excellent paint adhesion and paint overspray adhesion. Resists paint flaking, which eliminates the need for masking paper at the critical paint edge. The sheeting clings to vehicle and has center printing for easy alignment, which makes it easy to handle. Sheeting easily cuts to any size needed for a project.

83 19 2 450 334

1 roll (16ft x 400ft)

1 roll

3M™ Masking Paper

Blocks solvents used in gel coats and paints from soaking through and contaminating underlying surfaces. Provides resistance to paint solvents, urethanes, base coats and clear coats.

BULK DETAILING

Detailing Glass Cleaner Concentrate, BMW Group

Concentrated formula, dilute 8 oz with 1 gallon of water before using. Fast drying, streak free formula. Safe to use on all glass surfaces, including both factory and aftermarket tinted windows.

83 19 2 412 520

5 gal

1 piece

Detailing Interior Cleaner Concentrate, BMW Group

Concentrated formula, dilute 8 oz with 1 gallon of water before using. Safe to use on nearly all interior surfaces (leather, carpet, upholstery, and plastic). Formulated with highly effective grease cutters and particulate soil cleaners.

83 19 2 412 522

5 gal

1 piece

Detailing Car Shampoo Concentrate, BMW Group

Concentrated formula, dilute 2 oz with 1 gallon of water before using. When used as directed, creates a solution that removes dirt quickly and thoroughly without damaging paint or protective wax coatings. Do not use on vehicles with a Matte paint finish.

83 19 2 412 519

5 gal

1 piece

Detailing Wheel & Rim Cleaner (RTU), BMW Group

Acid-free formula that safely cleans and brightens wheels. Reacts with iron particles in brake dust to help clean. This reaction can be seen as its happening as the formula changes to a deep purple color. Does not degrade clear-coats or other finishes.

83 19 2 412 521

5 gal

1 piece

Detailing Leather Cleaner and Conditioner (RTU), BMW Group

Designed to clean, condition, and protect all smooth leather surfaces. Contains conditioning oils to help maintain and restore the leather's natural luster. Formulated with a powerful UV absorber to aid in protecting the leather from the sun.

83 19 2 412 524

5 gal
