## Repair Kit, Windscreen, Cold, 1 hour.

83 19 2 289 180 Repair Kit, Windscreen, 1 kit

### Product Description

Repair kit for cold-bonding of car windscreens, includes Glass Activator Stick, 1 hour Cold Adhesive, 2 assorted application nozzles. This application must comply with the repair manual from BMW Service

The BMW windscreen bonding enables a car with airbag to be returned to service after a short waiting time of at least one hour (safe drive- away time). Can be applied cold and hot without affecting the drive-off time.

- The use of applicator sticks ensures the efficient delivery of materials and optimum material application.

### Content Repair Kit

1x 1 hour Cold Adhesive  
1x Glass Activator Stick  
1x Repair Instructions  
1xC-nozzle  
1xUniversal nozzle

Cutting wire not included in set,

- PN: 83 19 2 150 267.

### Replacement Products

Windscreen Adhesive 300 ml,  
PN: 83 19 2 223 012  
Reiniger R1 Autobody Repair  
PN: 83 19 2 211 217

### Advantages

- Customers are content that only genuine BMW parts have been used.
- No legal uncertainty → no possibility of recourse, genuine BMW parts have been used to affect the best quality repair.
- One set contains all the required items.
- Large set contains 2 adhesive-cartridges (Normally reimbursable via insurance for large models).

- Adhesive, paint and glass sticks are also available to purchase individually.

### Safety

- Safety for drivers and pedestrians as only BMW tested products are used.
- Guaranteed for use with all Genuine BMW paints to work in conjunction with their specific formulations.
- The guaranteed activator and adhesive are perfectly matched (BMW activator is essential and much more efficient than other products, Crash Relevance).

### Performance

- Unique electric resistance / impedance → no interference with reception for radio, the only polyurethane-adhesive which fulfils the BMW requirements ( $> 3 \times 10^8 \Omega/\text{cm}$ ).
- Simple and efficient repair process.
- No black primer → no risk of contamination.
- Products tested to replicate the exact vehicle performance qualities as would be found in a new build car → e.g. Torsional rigidity
- Easier removal of a bonded screen.

### Quality Protection

# **PRODUCT HIGHLIGHTS.**

## **Windscreen Adhesive. Repair Kit, Windscreen.**

- A quality assured product, consistently → Dealer organisations can often change the supplier whilst still using the same product name.

### **Competitive Comparison**

- In comparison to other products, the BMW glass repair set contains the necessary items and is the only one, which is approved by BMW regarding safety and warranty issues.
